OFFICER'S REPORT

Brief Description of the site:

The site known as 'Oddfellows Hall' comprises a three storey building slightly set back from and faces the north site boundary onto Lefebvre Street. The building has an archway which is a vehicular entrance to the rear of the site used as a car park for up to 23 vehicles. To the east is the back of The Duke of Normandie Hotel, to the south is Berthelot Street and to the west is a footpath. Protected Buildings which face onto New Street also adjoin the site.

The site is located within the St Peter Port Main Centre and a Conservation Area as defined in the Island Development Plan.

Conclusion/Brief comment:

This application is to demolish the car port which covers part of the rear parking area, along the east and south boundaries, and to erect two, 1.1m walls to the rear of the building which will protect the two light wells to the lower ground floor on the south elevation.

The mid-twentieth century asbestos car port, is not original to the site and cannot be seen from many public vantage points. Removing potentially dangerous asbestos from a site is certainly encouraged and in this instance can be easily removed without causing disruption to any of the adjacent buildings.

The car port is not considered to have any architectural merit and does not contribute to the special quality of the Conservation Area. It's removal is considered appropriate in this instance.

The erection of the two 1.1m high rendered walls around the lower ground level lightwells, are at the rear of the property and will not impact on the Conservation Area, the setting of the adjacent protected buildings, nor will they affect any neighbour amenity. The walls will protect anyone from falling and are considered appropriate.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
