(5) Planning permission is only permission to carry out the development specified in it (subject to any conditions so specified), and does not imply the giving of any other approval or consent required under this Law or any other enactment or under any rule of law.

Right of appeal against planning decisions:

OFFICER'S REPORT

Brief Description of the site:

Planning permission is requested to install rooflights to the south (side) elevation, a Juliet balcony to the east (rear) elevation and alterations to fenestration in order to alter and convert an attached barn to create additional habitable accommodation. The replacement of the roof with natural slate constitutes exempt development and does not require planning permission.

The site comprises of a traditional two storey dwelling with a series of extensions and an attached barn to the rear. The site is located to the east of New Road and is in a Conservation Area and Main Centre Inner Boundary.

Relevant History:

30/03/2022 – PREA/2022/0995 – Pre-application advice regarding conversion of barn to habitable accommodation.

Existing Use(s):

Residential use class 1: dwelling house

Policies considered most relevant:

Policy GP4: Conservation Areas
Policy GP8: Design
Policy GP9: Sustainable Development
Policy GP13: Householder Development

Conclusion/Brief comment:

Situated to the rear of the site, the barn is not prominent, if visible at all, in public views. The alterations to the building achieve a high standard of design and would have no adverse effects on the character and appearance of the Conservation Area. The proposal accords with Policies GP4 and GP8.

The rooflights in the south elevation are proposed to have a cill height of 1.7m above the first floor level which would be sufficient to protect the amenities of the neighbouring residents to the south. Due to the layout of the neighbouring property to the north and its blank south gable, and the distance to the neighbouring property to the east, the Juliet balcony would have no significant adverse effects on the amenities of neighbouring residents.

Information has been submitted to demonstrate that the design has taken into account the use of energy and resources, in accordance with Policy GP9.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

It is recommended that the application is approved.
