Conclusion/Brief comment:

This application is to erect a timber shed with flag pole in the southeast corner of the site and demolish the existing chimney.

The original building was constructed in the 1960's and does not have any significant architectural features, therefore the removal of the chimney in this instance is not considered to affect the character of the area nor will it impact on neighbour amenity.

The timber shed is 6m x 3m and will sit further back in the site than the existing detached garage (which already has permission to be demolished, see relevant history above). The shed is single storey and is not considered to affect the character of the area or impact on neighbour amenity.

The flag pole is to be attached to the west elevation of the shed to the rear of the property and is not considered to impact on the character of the area or on neighbour amenity.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
