Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

The proposed extension adopts a good standard of design by virtue of its scale, form, massing, siting and materials. Due to its position and design together with the existing fence panel between the dwelling and the garage, the proposal will not have a detrimental impact on the character of the area, visual amenity, or the amenities of neighbouring residents.

The alterations to the dormer windows to the front and rear of the property together with the remaining alterations also comply with Policy GP8 and GP13.

Sufficient information has been submitted that has taken into account the criteria of Policy GP9 (Sustainable Development).

Based on the above, the application is considered compliant with the relevant Island Development Plan policies; it is therefore recommended that planning permission be granted, subject to conditions.
