Representations:

The Authority has received a letter of representation from one party objecting to the proposal and the pending application FULL/2022/1128. Grounds for objection principally relate to the following issues:-

- Inaccuracy of the drawings submitted with regards to site boundaries.

Consultations:

None.

Summary of Issues:

None.

Assessment against:

- 1 - Purposes of the law.**
- 2 - Relevant policies of any Plan, Subject Plan or Local Planning Brief.**
- 3 - General material considerations set out in the General Provisions Ordinance.**
- 4 - Additional considerations (for protected trees, monuments, buildings and/or SSS's).**

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

The proposal represents a minor form of development and adopts a good standard of design by virtue of its scale, form, massing, siting and materials.

Due to the secluded position of the works, the proposal will not have a detrimental impact on the character of the area, visual amenity, or the amenities of neighbouring residents.

Sufficient information has been submitted that has taken into account the criteria of Policy GP9 (Sustainable Development).

Whilst boundary issues and ownership issues are not material planning considerations as defined in The Land Planning and Development (General Provisions) Ordinance, 2007), the agent has subsequently amended the boundaries affecting the change of use application FULL/2022/1128. Any discrepancies as shown on the drawings submitted as part of this application would be without prejudice to the normal legal rights and privileges of third parties.

Based on the above, the application is considered compliant with the relevant Island Development Plan policies; it is therefore recommended that planning permission be granted, subject to conditions.
