Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

The removal of the hedge to the front of the property is acceptable, provided it is replacement by an appropriate and suitable boundary treatment that respects the character and appearance of the clos.

Whilst it is not normally encouraged to erect high fencing to the front of properties due to the potential effect it can have on the character and appearance of the area, the property is sited in a residential clos, and is setback and not visible from the main

road. In addition, the fence is perpendicular to the roadside boundary and permission has already been given for similar proposals on the clos (FULL/2015/0657). It is therefore considered that there would be no overriding grounds to refuse the 5ft high fence in the proposed position and the scheme accords with the requirements of the IDP.

Due to the type of development, it is not considered necessary to take into account the criteria of Policy GP9 (Sustainable Development).

Based on the above, the application is considered compliant with the relevant Island Development Plan policies; it is therefore recommended that planning permission be granted, subject to conditions.
