OFFICER'S REPORT

Brief Description of the development:

Installation of water refill station at La Vallette bathing pools and Kiosk. The application site is within the Main Centre Outer Area, a Conservation Area, an Area of Biodiversity Importance and the St Peter Port Harbour Action Area.

Relevant History: None in relation to this development

Existing Use(s): Outside bathing pools

Assessment: *(Tick as appropriate)*

no representation	☒	visual amenity acceptable	☒
accords with policy	☒	no material neighbour impact	☒
within curtilage	☐	traffic not affected	☒
design acceptable	☒		

Policies considered most relevant:

MC10: Harbour Action Areas
GP3: Areas of Biodiversity Importance
GP4: Conservation Areas
GP8: Design
IP11: Small scale infrastructure provision

Conclusion/Brief comment:

The siting of the refill unit is within an area closely related to other infrastructure development associated with the bathing pool kiosk, namely the newly constructed bike park and bin store. It is within a kerbed area near signage. As such the proposal would have no significant impact on the character and appearance of the conservation area or ABI.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

The application is acceptable in relation to the above policies and other material planning considerations.
