OFFICER'S REPORT

The application consists of a detached dwelling-house located at the end of a clos road (Mazotte Clos). The property is located Outside of the Centres as designated in the Island Development Plan.

Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

The hedge backs onto a long private road serving two houses to the south of the application site.

The removal of the hedge is supported under Policy subject to a replacement boundary treatment that is appropriate and in context with the locality.

Whilst erecting a fence on top of a boundary wall does not achieve a high standard of design for the purposes of Policy GP8, the replacement fence will not be visible from a public place. Consequently, the total height of the wall and proposed fence is acceptable in this secluded location.

Given that the site is not located within a sensitive area and that the replacement boundary treatment is not in a visible location from a public highway, there would be no overriding grounds to refuse the application when taking into account the support in favour of householder development.

In addition, a number of other fences are visible along the private road to the rear of neighbouring properties to the west of the application site.

Overall, the proposal will not have a significant detrimental impact on the character of the area, visual amenity, or the amenities of neighbouring residents.

Based on the above, the application is considered compliant with the relevant Island Development Plan policies; it is therefore recommended that planning permission be granted, subject to conditions.
