OFFICER'S REPORT

Brief Description of the site:

The property known as 'Imagine' is a 1930's bungalow which sits on a corner plot. Rue Cauchez runs along the west boundary and La Grande Rue runs along the south boundary, there are neighbouring properties to the north and east. The house faces west and the vehicular access is at the east end of the south boundary. The property is located Outside of the Centres as defined in the Island Development Plan.

GP13: Householder Development
IP9: Highway Safety, Accessibility and Capacity.

Conclusion/Brief comment:

This application is to demolish four chimneys and the rear extension, and erect a single storey flat roof extension in its place, on the same footprint. Install a flue to the north roof slope, add external insulating render system, alter the bay windows to the front elevation, some alterations to the fenestration and widen the vehicular access by 0.6m.

There are no specific housing types in the area, and the property is not within a Conservation Area, therefore the removal of the chimneys are not considered to cause any detrimental impacts on the character of the area.

The proposals achieve a good standard of design, using materials which complement the existing materials. The extension will provide adequate levels of sunshine and daylight, and give the occupiers more flexible and adaptable accommodation.

The scale and massing of the new extension and the other changes in the proposal are not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will they have any impacts on any of the immediate neighbours.

At present the vehicular opening is a track off Le Grande Rue and is 3.9m wide, the proposal is to remove and lower a section of earthbank and to increase the opening to 4.5m which is considered acceptable. The increase opening will improve vehicular access to and from the property and therefore there are no highway safety issues and policy IP9 is complied with.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
