**Conclusion/Brief comment:**

This application is to remove the front hedges and the eastern section of roadside wall to create a vehicular access c. 7.2m wide. The proposals do retain one section of the roadside wall, to the west of the proposed access.

The majority of the houses on the estate no longer have front gardens and so the character of the area is one of open, hardsurfaced frontages and low level bungalows.

The dwelling has a closed in frontage with a large hedge on either side of the pedestrian access and a low wall to the roadside boundary, outside the hedge to be removed.

The proposals are not thought to unacceptably impact on the character and appearance of the surrounding area, nor are they considered to affect neighbour amenity.

Due to the openness of the area, the good sight lines and low trafficked nature of the access road, there are no traffic concerns.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
