Conclusion/Brief comment:

This application is for the creation of two terraces to the northeast corner and southwest corners of the building at third floor level, the erection of a pergola on the northeast terrace and some changes to fenestration. There is already a door to the northeast terrace and it is paved, it will be updated as part of this application.

Policy MC4(A) states that the refurbishment or redevelopment of office stock within the Main Centres will be supported.

The works are on the third floor of an office block, both terraces will not be seen from many public vantage points and there are no residential properties in the locality which would be affected by overlooking. The proposals are not considered to affect the special quality of the surrounding conservation area or the setting of the protected building to the east.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
