OFFICER'S REPORT

Brief Description of the site:

The application site comprises a traditional farmhouse, set on the corner of Les Lohiers and La Grande Lande. The property is located Outside of the Centres as designated in the Island Development Plan

Planning permission was originally sought to erect a car port adjacent to the south-west (roadside) boundary, remove a hedge on the inside of the roadside boundary, and to widen the vehicular access.

Concerns were raised over the design of the car port/pergola, new trellis fence and replacement landscaping scheme. The agent has omitted the car port and has incorporated a replacement hedge to the front of the property in attempt to overcome the concerns raised.

Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

In light of the revised scheme, the partial removal of the boundary wall and the replacement hedge to the front of the property will have a negligible effect on the landscape character of the area and visual amenity, subject to appropriate conditions.

The proposal will improve sightlines when egressing from the property whilst respecting vehicle widths in the surrounding area.

Sufficient information has been submitted that has taken into account the criteria of Policy GP9 (Sustainable Development).

Based on the above, the application is considered compliant with the relevant Island Development Plan policies; it is therefore recommended that planning permission be granted, subject to conditions.
