The dwelling has now been demolished as part of the implementation of the extant permission for a replacement dwelling. The land falls away from the road towards the public land to the north. The property is bounded by residential properties to the west and east. The site is located Outside of the Centres under the Island Development Plan.

Conclusion/Brief comment:

Permission is sought to reduce the height of the roadside wall which retains a planter along the roadside boundary from 900mm to 750mm, retaining the granite pillars to either side of the existing access and the higher wall within the site. It is also proposed to erect new 2000mm high granite pillars to either side of the access drive, set 6m back from the roadside, including a new gate, and to erect a 2000mm high wall along the west side of the driveway, between the existing and new pillars. The submitted plans also indicate alterations to the driveway arrangement and surfacing.

The application is acceptable in relation to the above policies and other material planning considerations.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
