OFFICER'S REPORT

Brief Description of the site:

The site is located on the north side of St Andrews Road and comprises a semi-detached 2 storey cottage with a pantile roof. The main house is a protected building and is set Outside of the Centres but within a Conservation Area as designated in the Island Development Plan. The outbuilding in question is excluded from the extent of listing.

Planning permission was granted in 2017 (FULL/2016/2884) to demolish sections and alter the existing barn and install new external staircase to create terrace with a glazed balcony.

Planning permission was originally sought to erect a single storey extension and extend the existing terrace at 1st floor level to the east (side) elevation of the outbuilding. Concerns were raised over the relationship between the extended terrace area and the neighbouring property to the east and in response the terrace area above the proposed garden room has been omitted and a lean-to roof has been incorporated.

Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

In light of the revised scheme, the proposed lean-to garden room adopts a sufficiently high standard of design for the purposes of Policy GP8 (Design). The scheme respects the scale and form of the existing outbuilding and the setting of nearby protecting buildings, whilst also respecting the amenities of neighbouring residents. It is however necessary and reasonable to ensure that the cladding details and roof material are appropriate and respect the sensitive surroundings.

On the basis that full details of the roof and cladding materials are submitted to and agreed in writing by the Authority via a condition, the proposal is considered compliant with policies relevant policies in the IDP.

Sufficient information has been submitted that has taken into account the criteria of Policy GP9 (Sustainable Development).

Based on the above, the application is considered compliant with the relevant Island Development Plan policies; it is therefore recommended that planning permission be granted, subject to conditions.
