Conclusion/Brief comment:

This application is for a single storey extension to the west side elevation of the Protected Building.

Initially the design did not consider how the extension to the west of the dwelling would affect the Protected Building, especially the front elevation, which faces south onto the garden.

The application was deferred and a parapet was added to the front elevation to hide the extended wing behind, this addresses the front elevation and how the extension affects the protected building. The detailing has considered further and more information supplied on the homeowners aspirations of having a larger kitchen which is more open to the garden beyond.

Policy GP5 requires any negative effects on the special interest of a protected building to be balanced against the reasonable aspirations of the protect owner. The amendments and additional information are now considered to comply with the policy.

Due to the very limited views of the extension from a public place, there will not be a negative effect on the character and appearance of the Conservation Area, contrary to IDP Policy GP4.

The proposals are now considered to achieve a high standard of design, using materials which complement the existing materials. The extension will provide adequate levels of sunshine and daylight, and give the occupiers more flexible and adaptable accommodation.

The scale and massing of the new extension is not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will it have any impact on either of the immediate neighbours.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
