OFFICER'S REPORT

Brief Description of the site:

The property known as 'Dimelo' is a mid-20th century bungalow which sits in a triangular plot with neighbouring properties to the north and west. The property faces south looking onto Rue de la Perruque which runs at an angle from the south to the northeast. The property is located Outside of the Centres as defined in the Island Development Plan.

Conclusion/Brief comment:

This application is to remove the 2m high fence which runs along the west boundary and replace it with a 2m block/rendered wall.

On the other side of the fence is a pedestrian walkway to the rear of four of the properties that are immediately to the west. The rear gardens of the properties to the west are filled with a plethora of different sized sheds, trampolines and other domestic paraphernalia, all of which could be seen from the road if the fence was removed.

Generally boundaries between properties forward of the building line are lowered to around 1.2m to prevent the appearance of barricading. However, in this instance, due to the unique layout of the surrounding properties, a 2m boundary along the

whole of the western boundary will retain the character of the area without any feeling of barricading.

Allowing the proposed wall to be a height of 2m close to the road will not impact on highway safety as Dimelo's vehicular entrance is over 37m away and it would be no different than the existing situation of the 2m fence.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
