OFFICER'S REPORT

Brief Description of the site:

The property known as 'La Ruelle House' comprises two pre-1900's two storey attached dwellings which are set back from and face northeast onto La Fosse de Bas. There is an attached neighbour to the northwest and other neighbours to the southeast and southwest. The vehicular access is off La Fosse de Haut to the west. The property is located Outside of the Centres and is within a Conservation Area as defined in the Island Development Plan. The property is a Protected Building and is surrounded by other protected Buildings.

Conclusion/Brief comment:

This application is to remove a section of hedging to create vehicle access within the site and lay hardstanding for a parking area. The existing parking area directly behind the house will be laid to lawn.

The original application also included painting the gable end of the protected building. However, the proposal to paint the gable end of the building has been omitted from the application.

The house is located to the eastern side of the site and the vehicular traffic enters from the western side and there is a long drive to a parking area directly south of the property. However, this separates the house from the garden. The proposals will relocate the parking area to the western side of the garden to allow the existing parking area to be laid to lawn allowing direct access from the house to the garden.

The majority of the hedge to be removed is Leylandii, which do not generally support a great deal of wildlife. The hedging is within the property, it does not form boundary planting and there are no objections to its removal. The area to be used for parking is level and screened by an earth bank and maturely planted boundaries.

The new car park area would not alter or change the special character or appearance of the surrounding conservation area. The new car park would not impact on the setting of the Protected Buildings special interest, or on the neighbouring protected properties setting. The proposals will not affect any of the neighbours private amenity spaces.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
