Conclusion/Brief comment:

This application is to extend and alter the single storey extension to the south rear elevation, install an exterior insulating render system and erect a fence and wall to the north boundary.

The application was deferred due to the proposed front boundary fence being too tall at 1.8m on top of the retaining wall, which is considered to have a barricading effect, the deferral requested the fence to be lowered.

At present the front garden slopes down to the northeast, and the amended proposal is to change the current north boundary to a wall, to allow the front garden to be levelled. The wall will be 1.8m high on the applicants side and from the neighbours side it will be 1.8m at the northwest corner and 2.3m at the northeast corner. The height of the wall will be the same height as the neighbours fences, which will preserve the private amenity space for both properties. A section drawing on plan number 08C appears to relate to an earlier superseded scheme and is to be omitted from the application.

The extension proposals achieve a good standard of design, using materials which complement the existing materials. The extension will provide adequate levels of sunshine and daylight, and give the occupiers more flexible and adaptable accommodation.

The scale and massing of the new extension is not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will it have any impact on either of the immediate neighbours.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
