Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

The site is within the Main Centre of St Peter Port where extension of the existing retail use is supported in principle under Policy MC6. The proposed work is relatively minor, would be unlikely to prejudice the outcomes of the Local Planning Brief process for the Harbour Action Area and is therefore acceptable in principle under Policy MC10.

The proposals are acceptable in design terms subject to further details of the finish of the proposed timber cladding and roller shutters which can be controlled by planning condition. The proposal would not harm the character or appearance of the Conservation Area and accords with Policies GP4 and GP8. Adequate parking provision will remain. Information has been supplied to demonstrate compliance with Policy GP9: Sustainable development.

The application is acceptable in relation to the above policies and other material planning considerations and it is recommended that planning permission be granted, with conditions.
