ADVICE AND OTHER REMARKS:-

For the avoidance of doubt, this decision permits the erection of an extension to be used as an integral part of and incidental to the principal dwelling presently known as Troisieme. It does not permit the creation of a separately occupied annex or an independent dwelling. This would require a separate grant of planning permission and involve different planning policy considerations.

Section 18 of the Land Planning and Development (Guernsey) Law, 2005 ('the Law') defines the effect of the planning permission hereby granted, namely:

(1) Planning permission ceases to have effect unless the development permitted by it is commenced within a period of three years immediately following the date on which it is granted (or such shorter period as may be specified in the permission).

(2) Planning permission enures for the benefit of the land concerned and of every person for the time being having an interest in it.

(3) Any conditions subject to which planning permission is issued are enforceable in accordance with the provisions of Part V of the Law.

(4) Planning permission for the erection of a building is only permission to use it for the purpose specified in the permission or, subject to any restriction so specified, for any other purpose for which it is designed.

(5) Planning permission is only permission to carry out the development specified in it (subject to any conditions so specified), and does not imply the giving of any other approval or consent required under this Law or any other enactment or under any rule of law.

Right of appeal against planning decisions:

Your attention is drawn to the provisions of Section 68(1) of the Land Planning and Development (Guernsey) Law 2005, which provides a right of appeal, on the merits against a decision to grant planning permission subject to conditions (except a building condition), to the Planning Tribunal, which is independent of the States of Guernsey. An appeal to the Planning Tribunal under section 68 of the Law against this decision must be made before the expiry of the period of six months beginning with the date on which the Authority made this decision. Conclusion/Brief comment:

This application is to erect a single storey extension to the east rear elevation, remove a garage door and install a window and roof lights to the west front elevation. Some alterations to fenestration to create a dower unit.

The layout of the proposed dower unit and the information provided about its intended use, the facilities to be provided and the facilities to be shared with the existing dwelling are sufficient to demonstrate that the dower unit would be ancillary and well-related to the existing dwelling, in accordance with Policy GP13.

The proposals achieve a good standard of design, using materials which complement the existing materials. The scale and massing of the new extension is not considered to have a detrimental effect on the character and amenity of the surrounding area, due to it being at the rear of the property and not seen from public vantage points, nor will it have any impact on either of the immediate neighbours, due to the distance between the neighbours.

The proposals are not considered to impact on the Important Open Land or the Areas of Biodiversity Importance either side of the property site.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
