OFFICER'S REPORT

Brief Description of the site:

Laurel House, 2 La Sapiniere, Belmont Road is a two-storey detached house with render exterior and pitched tiled roof. Multi-pane sash windows exist throughout and a single-storey flat roof extension has been constructed to the rear of the property. A single-storey attached garage exists to the north of the dwelling with scalloped front wall to mask the flat roof behind.

The application relates to the removal and replacement of the existing roof in order to increase the height and pitch to offer a master bedroom suite served by two pitched roof dormers and a rooflight in the front and rear roofslopes. An existing gable window is also shown to be infilled. The existing garage door is also shown to be replaced with a window (Crittall glass screen).

The site is located in a Main Centre Outer Area and Conservation Area as designated in the Island Development Plan.

Conclusion/Brief comment:

The increase in ridge height with associated dormers and rooflights along with alterations to the garage door and infilling a window represent a good standard of design that will not result in harm to the character and appearance of the built environment, within a Conservation Area. The dwelling is situated away from adjoining residential properties and the works will not therefore, result in unacceptable overshadowing or loss of light to surrounding residential neighbours.

The dormers and rooflight in the rear roofslope will face across the flat roof extension to the rear of the property and its own private garden. There is adequate distance separation between the bathroom, landing and bedroom windows to ensure that overlooking is kept within acceptable limits.

An element of overlooking across the adjoining property to the east currently exists to the neighbouring garden from the first-floor windows of the application property. Despite the introduction of dormers in the front roofslope of the property the potential for overlooking and loss of privacy remains within acceptable limits.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

In view of the above it is recommended planning permission is granted for the proposed development.
