Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

There is a mix of high walls, low walls and hedges which form boundary treatments in the surrounding area. The proposal will have a neutral effect on the character and appearance of the area, subject to the wall matching as closely as possible to the existing stone wall.

Whilst increasing the height of the wall is likely to adversely affect sightlines should a vehicle egress from the driveway (looking in an east-to-west direction), the effect on highway safety is not considered to be substantial given that a lower section of wall immediately adjacent to the access point will be retained, and that the road is recognised as a 'Neighbourhood Road' which experiences generally low traffic speeds and volumes. Furthermore visibility is already impeded by the boundary hedge. On this basis, the proposal would be compliant with Policy GP8 and IP9.

Sufficient information has been submitted that has taken into account the criteria of Policy GP9 (Sustainable Development).

Based on the above, the application is considered compliant with the relevant Island Development Plan policies; it is therefore recommended that planning permission be granted, subject to conditions.
