OFFICER'S REPORT

Brief Description of the site:

The application seeks to erect a 1950mm high granite wall along the north boundary. Whilst the height of the wall is lower than prescribed in the exemptions ordinance (2007), the change in ground level on both sides would result in a boundary wall greater than 2m in height at certain parts along the boundary.

The application site is located Outside of the Centres as designated in the Island Development Plan.

Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

Due to the height and location of the wall, the replacement boundary treatment would not adversely affect the character of the area, visual amenity or the amenities of neighbouring residents.

It is noted that planting is proposed along the outer side (north) of the boundary wall to help soften the appearance of the wall from the neighbour's garden. Although given that these works fall outside of the application site there would be no requirement to require a landscaping scheme.

Based on the above, the application is considered compliant with the relevant Island Development Plan policies; it is therefore recommended that planning permission be granted, subject to conditions.
