OFFICER'S REPORT

Brief Description of the site:

The application site comprises the former Galaad Chapel, now used by Up Climbing Guernsey as a climbing centre. The Centre is located to the north of Rue De Galaad. The site is served by a car park on the opposite side (south) of the road and forms the corner between Rue De Galaad and Rue Des Francais.

Planning permission is sought to widen the vehicle access to the car park to 4.5m and to rebuild the pillar to match the adjacent pillar.

Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

Despite the partial loss of the roadside wall, increasing the width of the vehicle access to 4.5m is considered reasonable and acceptable under Policy. It is considered necessary to ensure that the pillar be rebuilt within a reasonable timeframe.

The proposal is more likely to improve traffic management as increasing the width of the access is likely to improve manoeuvrability to the car park and therefore limit the number of manoeuvres in the road, particularly when accessing the site from the east.

Sufficient information has been submitted that has taken into account the criteria of Policy GP9 (Sustainable Development).

Based on the above, the application is considered compliant with the relevant Island Development Plan policies; it is therefore recommended that planning permission be granted, subject to conditions.
