OFFICER'S REPORT

Brief Description of the site:

Mayfield is a two and a half-storey end of terrace property situated to the west of Queens Road, on the corner with Belmont Road. An off-set flat roof dormer exists in the front roofslope of the dwelling whilst other properties to the north benefit from flat roof dormers centralised in the roofslope. Swanbardi is the northernmost property in the terrace and does not have dormers or rooflights to the front or rear roofslopes.

The application relates to the alteration in roof form of the main house from a hipped to a pitched roof, installation of a replacement, larger flat roof dormer in the front roofslope and a new flat roof dormer in the rear roofslope of the property along with the erection of a single-storey flat roof extension with roof lantern to the rear of the dwelling and demolition and replacement of chimney stack to the southern gable.

The application was deferred in order to seek design improvements to the flat roof dormer in the front roofslope of Mayfield and amended plans were provided to show a narrower dormer in the front roofslope.

The site is located in the Main Centre and Conservation Area as designated in the Island Development Plan.

Conclusion/Brief comment:

Although the front dormer will be larger than existing given its proportions and position in the roof it could be argued that this represents an improvement over the existing situation. The dormers, roof extension incorporating chimney stack, extension and other alterations represent a sufficiently high standard of design to conserve the character and appearance of the Conservation Area, respecting the local built environment.

The proposals will not unacceptably increase the potential for overlooking and loss of privacy to the occupiers of adjoining dwellings nor will the works result in unacceptable overshadowing or loss of light to the windows in the west and south elevations of the adjoining attached dwelling to the north.

The scheme offers occupiers accommodation served by adequate sunlight and daylight and which offers more flexible and adaptable accommodation.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

In view of the above it is recommended planning permission is granted for the proposed developments.
