OFFICER'S REPORT

Brief Description of the site:

The property known as 'A Jaumais' is a 1970's bungalow which had a large extension added in 2012. The dwelling is located in the southwest corner of a large square site, along the east boundary is the road, Rue des Corneilles, along the north and west boundaries are public footpaths, Sous la Lande, with La Guet pine forest beyond to the west, and to the south is an open field.

The property is located Outside of the Centres as defined in the Island Development Plan.

Despite the scattered built development to the north, east and south of the application site, the surrounding area has a relatively undeveloped, open and rural nature which contributes to the landscape character and amenity of the area.

Conclusion/Brief comment:

This retrospective application is to reconstruct the existing gate pillars in the same location as previously existed and to erect new automated black aluminium vehicular gates. The pillars were dismantled to allow the driveway to be re-paved.

The gates are set back from the road by 9m, which allows a car to pull fully off the road, and not cause any traffic safety concerns. The installation of new gates is not considered to have any detrimental impacts on the character and appearance of the surrounding area and nor will they effect neighbour amenity.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
