OFFICER'S REPORT

Brief Description of the site:

The property known as 'Ocean Echoes' is a mid-20th century one and a half storey dwelling from the front and it has a basement level at the rear. The property is set back from and faces south onto Route du Felconte. The land falls away northward, with the road being slightly higher than ground floor level, hence the basement level at the rear. There are neighbouring properties to the east and west and across the road to the south. To the north are open agricultural fields. The property is located Outside of the Centres and within the Agriculture Priority Area as defined in the Island Development Plan.

Conclusion/Brief comment:

This application is for a variation to the previously approved application, FULL/2022/0559, the variation is to include a single storey ground floor extension, extending out onto the raised deck area, with associated works at basement level. The ground floor door to the west elevation constitutes exempt development.

The new dining room extension will have glazed walls on two side which will open onto the already approved terrace/balcony area. One side of the new dining room will look westward, but the distance to the boundary means there will be little overlooking, certainly not enough to warrant a refusal.

The proposal achieve a good standard of design, using materials which complement the existing materials. The extension will provide adequate levels of sunshine and daylight, and give the occupiers more flexible and adaptable accommodation.

The scale and massing of the new extension is not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will it have any impact on either of the immediate neighbours.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
