Conclusion/Brief comment:

This application is to replace the 0.9m galvanised perimeter fencing with 1.8m bow top playground fencing along the public facing west elevation and to replace the 0.9m palisade timber fencing with 1.8m vertical hit and miss timber fencing along the south boundary with the church and to the north side of the track which borders the residential dwellings to the south.

The proposed west facing 1.8m bow top fencing creates a boundary which is transparent but still creates a barrier to entering the site, allowing views to and from the school from the road. The style and design is considered appropriate in this location.

The less public facing boundaries to the south will be upgraded with 1.8m hit and miss fencing, which will also prevent access onto the site without a feeling of barricading. On boundaries away from the front elevation fences up to 2m are common between properties. In this case the hit and miss fencing is considered to be an appropriate replacement of the lower palisade fencing.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions. All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
