Conclusion/Brief comment:

Removal of a 1.4m section of roadside boundary wall and pillar, to widen the vehicular access, rebuilding the pillar to finish the wall. Relocate a lamp post and extend the pavement across the entrance with a dropped kerb.

The proposals would increase the existing vehicular opening from 2.8m to 4.2m, which is considered to be an appropriate increase and the existing pillar would be rebuilt to retain the character and appearance of the surrounding conservation area. The proposals are not thought to have any detrimental impacts on neighbour amenity.

At present the lamp post is located behind the existing pillar, which is on site, the proposals relocated the pillar onto the pavement, which is more appropriate should the lamp post need any maintenance. The proposals also extend the pavement across the vehicular opening which improves highway safety for pedestrians.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
