OFFICER'S REPORT

Brief Description of the site:

Hylton, Le Frie Baton Road formerly comprised a detached single storey hipped roof dwelling with single-storey extensions to the rear. Following grant of permission, the dwelling has however been demolished and work has commenced on the construction of a replacement dwelling.

The domestic curtilage of the site is limited to the south-west, previously divided from the agricultural land within the same ownership to the north and east by substantial hedging. The property is set on the periphery of a further area of open and undeveloped agricultural land to the north and east. Residential development exists to the south of the site, running along Rue du Pre Bourdon, and Le Frie Baton Road is situated to the west, characterised by a mix of open land and residential properties.

The site is located Outside of the Centres and within the Agriculture Priority Area as designated in the Island Development Plan.

Conclusion/Brief comment:

The application proposes the following changes to the approved plans:

- Material to roof from standing seam grey roof covering to slate;
- Extension of clad areas and alteration from charred timber to composite golden oak;
- Addition of granite slip cladding;
- Omission of render finishes;
- Omit balcony to east and west;
- Alterations to chimneys;
- Alterations to fenestration, including installation of glazed gable to south elevation and re-positioning/re-sizing of rooflights.

The application had to be deferred on a number of occasions to ensure the required and accurate plans were provided.

The proposed alterations would not result in any adverse impacts on the character or visual amenity of the area, or on neighbour amenity, and would remain within the terms of planning policy.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
