The application site comprises an open storage yard which houses specialised gas cylinders. The property is located in a Key Industrial Area and Main Centre Inner Area as designated in the Island Development Plan.

Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

Policy MC5A states that within the designated Key Industrial Areas proposals for new or alteration, extension or redevelopment of existing industrial or storage and distribution developments and related ancillary development will be supported.

It is noted in the agent's letter of 14th November 2022 that the proposed canopy will satisfy the British Oxygen Company's requirements to ensure the cylinders are being stored in line with best practice.

The proposed canopy is of an appropriate design suitable for the KIA in terms of its scale, form, mass, materials and appearance. The canopy will be set back from the road and will be 'read' against other industrial buildings and structures in the surrounding area.

Infilling the gates to the west of the site is also acceptable.

Sufficient information has been submitted that has taken into account the criteria of Policy GP9 (Sustainable Development).

Based on the above, the application is considered compliant with the relevant Island Development Plan policies; it is therefore recommended that planning permission be granted, subject to conditions.
