OFFICER'S REPORT

Brief Description of the site:

The dwelling consists of a granite cottage with a large, contemporary extension to the north, set within a semi-rural area with agricultural fields bordering the site on two sides. The dwelling is set on a hillside where land levels slope steeply down from the road to the west. A large, terraced area is located to the rear of the extension, with steps down into the main garden.

The site is located within a Conservation Area and is Outside of the Centres.

Relevant History:

FULL/2017/1544- Remove hedge and erect granite wall and install gates to vehicular access (east elevation) (part retrospective).

Approved -

FULL/2015/0454 – Demolish existing garage and extend and alter dwelling at ground and first floor level to the side (north) elevation, erect a porch (south elevation), reduce width of existing access, create new vehicular access and driveway and install gate.

Approved – 15/04/2017

Existing Use(s):

01 – Residential dwellinghouse

Conclusion/Brief comment:

The proposed basement level extensions and associated enlargement of the terrace above will have no impact on the streetscene or neighbours due to the position within the site. The erection of the two-storey outbuilding is acceptable due to the changes in land levels which means that the outbuilding will only appear single storey from the road and is well set back from the road and is therefore of an

appropriate scale. The traditional roof form is compatible with the Conservation Area location.

No harm to neighbours by overshadowing or overlooking is anticipated as the nearest neighbour to the rear is approx. 47m to the west.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
