OFFICER'S REPORT

Brief Description of the site:

The application site comprises a detached bungalow located to the south-east of Rue De La Planque, Torteval and is located Outside of the Centres as defined in the Island Development Plan.

An application to raise the ridge height of the dwelling and erect a single and two storey extension to south-east (rear) elevation (FULL/2020/1880) was withdrawn in 2021 due to substantial concerns over the proposed development.

Permission was later granted in 2021 to, amongst other elements, raise and alter the ridge height to create first floor accommodation and erect a detached 1.5 storey garage/office to the rear of the site (FULL/2021/1151).

Planning permission is now sought to erect a single storey flat roof extension to the south-east (rear) elevation and raise the ridge height of to the front (northwest) of the property. It is also proposed to install external insulating render and to make alterations to the fenestration.

Relevant History:

FULL/2021/1151	Change of use of agricultural land to domestic garden (1,670sqm). Raise and alter roof ridge height to create first floor accommodation, install external insulating render system and erect detached 1.5 storey garage/office.	Granted
FULL/2020/1880	Change of use of agricultural land to domestic garden. Erect single and two storey extension to south-east (rear) elevation. Raise ridge height, install external insulating render system and alterations to fenestration.	Withdrawn

Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

The proposed extensions and alterations to the dwelling are substantially different to that recently approved (FULL/2021/1151). Consequently, the proposed changes are scaled-back, more receptive of the existing built form, and therefore less impactful on the character and appearance of the surrounding area when compared to application FULL/2021/1151.

The design adopted achieves a good standard of design in terms of its scale, mass, form, siting and materials for the purposes of Policy GP8. There will be no adverse effect on the amenities of neighbouring residents.

The garage to the rear of the property has been approved as part of application FULL/2021/1151.

No representations have been received as part of this application.

Sufficient information has been submitted that has taken into account the criteria of Policy GP9 (Sustainable Development).

Based on the above, the application is considered compliant with the relevant Island Development Plan policies; it is therefore recommended that planning permission be granted, subject to conditions.
