Conclusion/Brief comment:

The application relates to the erection of a subservient one and a half-storey extension to the east of the recently constructed dwelling designed to reflect the appearance of the main house.

The extension represents a good standard of design that respects the local built environment. The extension will not result in overshadowing or loss of privacy to any surrounding residential neighbours.

The position of the extension, to the side of the property will, to a degree, limit visual access to the open and undeveloped land to the north of the dwelling however the extension will not undermine the open landscape character of the area.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

In view of the above it is recommended permission is granted for the proposed extension.
