Conclusion/Brief comment:

This is an application to vary the previously approved application, FULL/2021/1089, the changes are to angle the rear first floor privacy screens, and some alterations to the fenestration at ground and first floor level.

The changes to the privacy screens are considered to be appropriate, they widen the occupiers view without compromising the privacy the screens provide to the neighbours.

All of the fenestration changes are considered acceptable.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
