**Conclusion/Brief comment:**

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

Whilst the development will result in the partial loss of a boundary feature, the extent of removal is limited and justified given the difficulties in turning into the property when approaching the site from the west. Whilst the proposed access width is slightly larger than that others in the immediate vicinity, the proposal will not have an unacceptable adverse effect on the character and appearance of the area and would not warrant refusal.

Consequently, the partial loss of the wall in relation to Policy GP1 (Landscape Character and Open Land) has been balanced against and is outweighed by the general support in favour of householder development as set out in Policy GP13.

The alterations to the access will not affect highway safety or raise traffic management issues (Policy IP9, Highway Safety, Accessibility and Capacity).

Sufficient information has been submitted that has taken into account the criteria of Policy GP9 (Sustainable Development).

On this basis, the application is compliant with the relevant Island Development Plan policies, it is therefore recommended that planning permission be granted, subject to conditions.
