OFFICER'S REPORT

Brief Description of the site:

The property known as 'Edoras' is a 1970's two storey detached dwelling which is situated on a corner site with Fosse Andre to the south and the Water Lanes to the east and the access drive to the west shared with one other property which is to the northwest. The house faces west with the majority of the garden to the front and south of the property. There is a high granite boundary wall along the south and east boundaries. The property is located in the St Peter Port Main Centre Outer Area and Conservation Area as defined in the Island Development Plan.

Conclusion/Brief comment:

This application is to demolish the existing conservatory and erect a single storey flat roof extension to the side south elevation and a single storey flat roof porch to the front west elevation. A wooden covered area to the side south elevation and some alterations to the visitor parking to the west of the access drive.

The proposals achieve a good standard of design, using materials which complement the existing materials. The extension will provide adequate levels of sunshine and daylight, and give the occupiers more flexible and adaptable accommodation.

The scale and massing of the new extension is not considered to have a detrimental effect on the special character and amenity of the surrounding conservation area, nor will it have any impact on either of the immediate neighbours.

Due to the boundary treatments around the property, a high granite wall and plenty of mature planting, the proposals will not be seen from any public vantage points. This includes the alterations to the visitors parking area along the western boundary.

The removal of the bushes/hedge in this instance is considered to be acceptable as a good percentage of planting will remain in the area and the paving is also considered to be acceptable.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
