Assessment: *(Tick as appropriate)*

no representation	☒	visual amenity acceptable	☒
accords with policy	☒	no material neighbour impact	☒

design acceptable	☒		

Policies considered most relevant:

GP8 – Design

GP9 – Sustainable development

GP13 – Householder development

Conclusion/Brief comment:

The proposed development is for a single storey rear extension, of a very similar scale, design and appearance as the existing extension at no 5.

The design is acceptable in relation to policy GP8 and GP13, and the impact on the neighbours has been carefully assessed. The attached neighbour to the west has an existing extension to their west, and will have the proposed extension to their east along the boundary. In combination with this, the northern aspect, and the existing high wall to the rear, there is an enclosing impact. However, this has not been considered to be significantly harmful, or sufficient to warrant a refusal on this basis, because the extension is single storey in design which limits the visual and physical impact to an acceptable level, and on balance, this meets the expectations of Policy GP8 and GP13.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
