OFFICER'S REPORT

Brief Description of the site:

The property known as 'La Vallee' is a pre-1900's detached pitched roof bungalow, which is set back from and faces southeast onto Rue de la Vallee. The road runs around and up to the east and there is a neighbouring property to the north at a much higher level. In the other directions is open land. The property is located Outside of the Centres and is within a Conservation Area as defined in the Island Development Plan.

Conclusion/Brief comment:

This application is to demolish the existing front porch and rear extension. Extend the raised patio area, erect a single storey flat roof extension, a single storey pitched roof extension and new box dormer to the rear northwest elevation, and a new front porch, cat slide dormer and two small rooflights to the front southeast elevation. Plus some alterations to the existing fenestration.

The proposals are considered to achieve a good standard of design, using materials which complement the existing materials. The extensions will provide adequate levels of sunshine and daylight, and give the occupiers more flexible and adaptable accommodation.

The changes to the front of the property are sympathetic to the age and style of the building and are not considered to alter the character and appearance of the surrounding conservation area.

Due to the topography and location of the property within a valley, which has a steep bank rising up to the northeast, the more modern extensions and dormer to the rear are considered to be acceptable as they will not be seen from any public vantage points. The scale and massing of the new rear extensions are not considered to have a detrimental effect on the character and amenity of the surrounding conservation area, nor will they have any impacts on the only neighbour.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
