### Conclusion/Brief comment:

The application relates to the installation of balconies at first floor level to blocks 'A' & 'S' and erect balconies at first and second floor levels to blocks 'C' & 'P'.

A site visit was carried out and the balconies all look over either the main road, Le Grand Bouet, or the access road Rue de Chateau, which are public spaces and not private amenity spaces, therefore there is no overlooking.

The scale and massing of the proposals are not considered to have any detrimental effects on the character and amenity of the surrounding area.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
