Conclusion/Brief comment:

Policy IP11 states that proposals for small scale infrastructure will be supported where this would contribute to the maintenance and support of efficient and sustainable infrastructure and accords with other relevant policies of the Plan.

In terms of design (Policy GP8), the size, siting and material of the enclosure is considered to have a negligible effect on visual amenity or the character of the area, and the proposal retains the existing mature boundary hedge which screens the site.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
