### Conclusion/Brief comment:

This application is to upgrade some of the fencing to the south of the playground at the entrances, replacing it with 1.5m fencing, pedestrian and vehicular gates and to install chain link fencing to match the existing to the west and south of the school playing field.

The fencing is being installed across many of the schools on the island to keep the schools safer and to prevent access during the evenings and school holidays. The style and the height of the fencing have been chosen by the schools and is considered appropriate.

The fencing is not considered to have any harmful impacts on the character and appearance of the surrounding area, nor will it have any adverse impacts on neighbour amenity.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

Grant with Conditions
