Conclusion/Brief comment:

Initially this application was to excavate part of the raised garden area, erect retaining walls and external steps to create additional car parking. The application was deferred to suggest an alternative idea which left the raised garden area as it is and to extend the car parking northward into the front garden area.

The application has since been amended to show the additional car parking to the north. Changing this area of grass to hardstanding is considered appropriate and the raised garden area remains intact.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
