OFFICER'S REPORT

Brief Description of the site:

The property known as 'Le Pre au Gene' is a one and a half storey detached early 20th century dwelling which is set back from and faces south onto Rue des Goddards. To the east is an access road, Goddards Rise, to the north are two neighbouring properties, to the west the local Co-Op shop is separated from the shop by the driveway of a neighbouring property and there are other residential neighbours across the road to the south. The property is located Outside of the Centres as defined in the Island Development Plan.

Conclusion/Brief comment:

This application is to replace the existing conservatory with a single storey pitched roof extension on the same footprint and create a balcony above the existing rear flat roof and an external staircase on the west side to reach the balcony.

The flat roof area lies between the main dwelling (south) and the pitched roof garage (north), which prevents overlooking to the north. Views to the east would be limited by the pitch of the dwelling, but the view to the east is of the clos access road and front gardens, all over 14m away. The main views would be to the west, where the

initial overlooking is of the neighbours driveway and the Co-Op car park, which do not comprise areas which would be sensitive to such overlooking.

The proposals achieve a good standard of design, using materials which complement the existing materials. The extension will provide adequate levels of sunshine and daylight, and give the occupiers more flexible and adaptable accommodation.

The scale and massing of the new extension and balcony is not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will they have any impacts on any of the immediate neighbours.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
