OFFICER'S REPORT

Brief Description of the site:

The application site comprises a traditional, semi-detached dwelling located to the south of Les Amarreurs Road. A private driveway is located to the rear of the house and serves the neighbouring properties in the immediate area.

The site is located within a Conservation Area and is Outside of the Centres as designated in the Island Development Plan.

Planning permission was originally sought to install a Juliet balcony to the north elevation, and to alter the roof form, install windows and cladding at 1st floor level to the south elevation. The proposal will serve as a walk-in pantry/larder and a walkway.

Concerns were raised over the Juliet balcony as it would alter the traditional sized openings and rhythm of the fenestration on the principal elevation which would neither conserve nor enhance the Conservation Area. In response, the agent has omitted the Juliet balcony.

Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

The flat roof alteration to the rear of the property adopts a good standard of design by virtue of its size and materiality. The alteration proposed will not be visible from the Conservation Area due to its secluded location. Due to the siting of the development, it is not considered necessary to condition the composite cladding to be used when taking into account the degree of flexibility afforded to householder development (Policy GP13).

Overall, due to its position and design, the proposal will not adversely affect the Conservation Area, visual amenity, or the amenities of neighbouring residents.

Sufficient information has been submitted that has taken into account the criteria of Policy GP9 (Sustainable Development).

Based on the above, the application is considered compliant with the relevant Island Development Plan policies, accords with the purpose of the Law, and the requirements of the material considerations; it is therefore recommended that planning permission be granted, subject to conditions.
