Conclusion/Brief comment:

This application is to demolish a section of roadside boundary wall to widen the vehicular access. Initially the proposals were to demolish 2.1m of roadside boundary wall to increase the opening from 2.9m to 5m. In this instance this was deemed to be excessive given the character of the surrounding area and existing vehicle access widths.

Although Lowlands Road is not part of the Conservation Area of St Sampsons, roadside boundary treatments are still considered to be important when it comes to visual amenity of the street scene. Therefore keeping as much of the roadside wall as possible retains the local character of the area.

The application was deferred to request that only 1.1m of wall would be removed to increase the vehicular access to 4m, which is very similar to other entrances off Lowlands Road.

The drawings were amended and the proposals are now considered to comply with all the relevant policies and is not considered to have any detrimental impacts on the character and appearance of the surrounding area, nor will they impact any neighbour amenity.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
