Conclusion/Brief comment:

This application proposes repairs to existing windows/doors and the replacement of other windows/doors in the protected building. Repair work is usually exempt, but to ascertain whether the windows require repair or replacement a window schedule is required, the windows which require repair will not be part of this assessment.

Initially the application was deferred to request an amendment to the Block Plan and a basic window schedule.

The additional information provided by the agent was really useful and enabled a clear assessment of the proposals. The proposals are considered to comply with GP5, repairing some windows and replacing others as stated in the information.

The proposals are not considered to have any detrimental impacts on the character and appearance of the surrounding area, nor will they impact on any neighbourhood amenity.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
