Policies considered most relevant:

OC2: Social and Community Facilities Outside of the Centres

GP1: Landscape Character and Open Land

GP8: Design

Conclusion/Brief comment:

The proposed structure is limited in scale, and ancillary to the running of the education site. The structure would be positioned away from the site boundaries, within a copse of trees, and any visual impact would be limited. The proposal would result in the removal of a number of trees and other planting, however those trees are not considered to be of sufficient value to warrant protection and, in the context of the tree cover on this site, and that which would be retained immediately surrounding the building, the impacts would not be sufficient to warrant refusal.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

The application is acceptable in relation to the above policies and other material planning considerations.
