Conclusion/Brief comment:

This application is to erect a single storey outbuilding along the west boundary of the front garden and some alterations to the fenestration of the east and north elevations. The alterations to the fenestration are exempt and do not require planning permission.

As originally submitted there were concerns with the size and siting of the outbuilding. The application was deferred for the outbuilding to be reduced in size and for it to be moved closer to the house away from the roadside.

Revised plans have reduced the size of the outbuilding and moved it closer to the house and there is now 5m from the roadside boundary to the outbuilding. Had the outbuilding been moved even closer to the house it would not have been as noticeable because the building line of the neighbouring properties are further forward. However, although the outbuilding is still forward of the building line, it has

been moved away from the roadside which will lessen the impact on the visual amenity of the area to an acceptable level.

The scale and massing of the new outbuilding is not considered to have a detrimental effect on the character and appearance of the surrounding area, nor will it have any impacts on any of the immediate neighbours.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
