Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

The proposal will adversely affect the character and appearance of the surrounding area by virtue of introducing a shed to the front of the property, however, the degree of harm on the locality is not considered to be significant when taking into account its position close to the house, its limited width, height, and form adopted. In addition, the property is not facing onto a main road, nor is the property a protected building or located within a Conservation Area.

Based on the above, the application is considered compliant with the relevant Island Development Plan policies, accords with the purpose of the Law, and the requirements of the material considerations; it is therefore recommended that planning permission be granted, subject to conditions
